July 25th, 1918

Ladies and Gentlemen,—

Run your car in here at any time and we will do any one or all of these things for you.

- Show you how much air you should have in your tires for the load you carry.
- Fill your radiator with water.
- Test every tire on your car.
- Put in air if necessary.
- Raise or lower your top.
- Examine your tires for cuts or other injuries.
- Test your wheels for alignment.
- Examine your springs for broken leaves.

That is the kind of service we extend to our customers. All we ask you to do is to take advantage of it.

The quality of the tires, tubes, tire savers and other automobile accessories we have for sale, is in perfect harmony with the service we give.

Ask DR. SCOTT about Goodyear tires. We sell them.

Why not, when buying tires, get this service for nothing? We are clearing out a portion of our stock at wholesale prices. Take advantage of these prices while the stock lasts.

Yours truly,
ROY SMITH.

Sunday School Convention A Great Success

It may have seemed a formidable task to organize a Sunday School Convention, but any fear as to the outcome, were quickly dispelled on Sunday when the Harveian last was rewarded by met' brilliant success. A delegate, composed of fifty day school teachers and friends were present from Glen, Hines, Latham, Gleichen and Bassano. Judging from the enthusiasm and spirit manifested by all those present and taking part, it is safe to say that the work amongst our children and young people has received an impetus worthy of the greatness of the task. It was simply remarkable the interest and the ability that was manifested during the day's proceedings. Great gains in the spiritual life of our youth were made. The speaker, Dr. J. H. Brown, of the Presbyterian Synod of Alberta, and President of the Alberta Sunday School Federation, was the special speaker during the Convention.

In the morning the regular S. S. and Bible Class was held, and following the teaching of the Lesson, Mr. Scruton gave a short address to the children.

The chairman, Rev. T. S. Paton, on calling the Convention to order, welcomed the delegates and expressed the opinion that they would go back again to their work with heart and with greater knowledge. Mrs. A. E. Cross of Bassano was appointed secretary for the day. There was the Hall call of the various S. S. 's, and the discussion of organization. A most excellent paper on the "Teacher Training Course" was read by Mrs. Holm of Latham, and a discussion followed, led by W. E. Deckard also of Latham. Anyone who thinks that S. S. teaching is a simple thing should have heard the paper, and they would then have known that it is a work worthy of the highest art and genius, demanding the keenest intellect, and fit only for those of a devout life. The paper by Mrs. A. E. Cross on "Missionary Relation to S. S. 's" was collected and revealed deep thought and careful study. The discussion by Mrs. E. Maurer showed that the subject had touched a vital chord in the hearts of all present. E. Scruton, Esq. addressed the Convention on the theme "A Standard Sunday School." It was a masterly discourse based on the needs of S. S. 's in the rural districts, and urging the workers to make their schools as efficient as possible. He dealt with the following subjects: 1. Grade Roll and Home Department; 2. Organized Class; 3. Secondary and Adult Division; 4. Temperance Instruction; 5. Definite Decision for Christ.

The evening session attracted an audience sufficient to fill the church, from 7.30 to 8 the Convention took the form of a service followed by devotional exercises. The singing was of a most hearty nature and stirred the feelings of the large congregation. The special address delivered by E. Scruton was based on the words "And Jesus increased in wisdom and stature and in favour with God and man," Luke 2-52.

It was a powerful address showing the development of Jesus in a four-fold fashion, in wisdom, stature, and in favour with God and man. Ideal growth implies a perfect development of body, mind and spirit. Physical culture is a grand thing, but without mental

Magnificent Cup Offered For The Best Wheat

The Department of Colonization and Development of the Canadian Pacific Railway announces that it will award a silver cup valued at five hundred dollars for the best kind of hard spring wheat exhibited at the International Self-Product Exposition at Kansas City, Mo., October 15-25, 1918. All farmers in Western Canada who have good hard spring wheat should be interested in this announcement and it is hoped that among them will be found the successful competitor.

Wheat has become a vital factor in the economy of the west and the railway company hopes in this way to encourage production of the best varieties. At the same time it is hoped this competition will focus attention upon the numerous food-producing possibilities of Western Canada. Canadian farmers have been winners of the competitions of the International Self-Product Exposition and the winning of this cup by one of their number would be an appropriate climax to a series of triumphs.

It is expected that boards of trade, agricultural societies, farmers' organizations and other public bodies throughout Western Canada will interest themselves in seeing that the very best kind of wheat in each of their respective districts is entered in this competition. Individual farmers will also not doubt be eager for the distinction of winning this cup. Particulars as to the exhibit may be had by addressing Robert J. C. Sted, Publicity Agent, Department Colonization and Development, C.P.R., Calgary.

Real Rain At Last

In the situation of two typical Alberta wheat districts on Monday night the soil to depths of three to six inches throughout the whole district the seed situation has materially improved and in many cases it will have helped to increase the yield of late oats and flax.

Farmers who have not begun to cut have been busy engaged in breaking this week taking advantage of the moisture to prepare for the bumper crop which expert prophets foretell will be grown in 1919.

North and south-west of town section after section has been brought under the plow, the Arcton Brothers and the Crawford Farming Company alone have broken nearly 2000 acres this year while many smaller outfits have been busy engaged all the year bringing land under cultivation.

Prospects for a wet fall are excellent and despite the partial failure on most farms and the total failure on others the most optimistic prevail.

Cutting is fairly general throughout the district and while the yield is still highly speculative most of the farmers express the conviction that the average will surprise most people.

Alfalfa are turned to the Glen Colony where yields of 30 to 50 bushels of wheat are spoken of and correspondingly heavy crops of oats are expected.

and spiritual culture it leaves one little better than a mere animal. Spiritual culture is a grand thing, but without a sound, strong body the life is seriously handicapped. The responsibility of parents was dealt with and the speaker declared that no parent had a right to bring children into the world and shift the responsibility, for their religious training on outsiders.

Throughout the day's proceedings the Convention was brightened by very excellent music rendered by artists from Latham, Glen, and Bassano. An executive committee, representative of all the schools, was appointed, and this committee has the honor to arrange for such future Conventions as may be desired.

The officers and committee are as follows: Pres. W. E. Deckard, Latham; Vice-Pres. Mrs. McLeod, Gleichen; Secy-Treas. Mrs. Walters, Bassano; Mrs. Smith, Hines; Mr. King, Glen; Mr. Hyde, Glen; Rev. W. S. Brookes and Rev. T. G. Paton.

NOTICE!

The Peoples Market Limited

With to respectfully notify all their
patrons that they are doing a strictly
CASH TRADE.

They would very much like to accom-
modate those who wish credit but would not
like to discriminate among their many
customers, and as it would be impossible
to extend credit to all, they have,
therefore, decided to deal only for cash
except to stockholders, who may have
credit for 30 days only, and to the
extent of 50 per cent of their paid-up
stock.

Any customer, therefore, wishing to
run an account with The Peoples Market
Limited is invited to subscribe for
stock, and, besides obtaining interest
on their investment, will receive at the
end of the year a co-operative dividend
on all business transacted with their
company.

Al. Swain Transferred
to Clareshom.

A. H. Swain, who for the past five
years has been the manager of the Robt.
Hood Elevator at Bassano has recently
been transferred to Clareshom, leaving
with Mrs. Swain for that point on Wed-
nesday.

"Al" has been prominently connected
with everything concerning the social
and entertainment work of the town
from the first day he arrived and he has
been responsible as manager for a
number of amusements given by local
talent. Both "Al" and Mrs. Swain
have decided to give for entertaining and
the former has demonstrated on many
an occasion that he is possessed of an
originality and wit of more than average
merit.

As a user of the phone "Al" can hold his
own with the best of them, as many
have found to their cost.

At a dance given in their honor on
Monday last by their numerous friends
Mrs. Swain was presented with two
pieces of silver-ware and Mr. Swain with
a smoker's companion as tokens of the
regard with which they are held and as
a reminder of the many friends they
have left behind.

Large Portion of Indian Reserve
Leased For Farming.

Arrangements have been made to start
two large farms on the Blackfoot reserve,
one of these is located on the surrendered
land south of the Bow River, and covers
about fifteen sections. The other is
on that portion of the reserve that is
situated north of the Bow River. This
farm comprises three or four thousand
acres of fine land. In addition to these
two greater production farms, ten
sections have been leased to whites for
farming on this reserve at \$5.00 per acre
per annum, the applicants paying at the
time of signing the lease agreements of the
first year's rental, the balance to be paid
in four equal annual installments. Seven
more sections have been spoken for at
this figure, but full payments have
not yet been made. This will make a
total rental so far of \$24,000.

CANNING DON'TS

- Don't start canning until you have the
right appliances.
- Don't use old screw-tops. Buy new
ones.
- Don't use old rubbers. New ones are
cheaper than allowing fruit to spoil.
- Don't use two-quart jars. Use quart
size. That size is best for a family of not
over five members.
- Don't neglect cleanliness—clean
person, clean room, clean appliances,
clean work. Cleanliness counts fifty per
cent.
- Don't plan to can more than three to
six jars of fruit or vegetables the first
day. Speed up gradually.
- Don't mistake steaming water for
boiling water. It doesn't mean the righting
of boiling water at the moment of
using.

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer
independent of rainfall, and
insures good crops, not occa-
sionally, but EVERY YEAR.
Irrigation makes possible the
successful culture of alfalfa,
the king of alfalfa, which in-
sures good returns in dairying
and mixed farming.
Irrigation means intensive farm-
ing and close settlement, with
all the advantages of a densely
populated agricultural community.
Irrigation in the Canadian Pacific
Railway Irrigation Block is no
longer an experiment, the years
that it has been tried having
absolutely demonstrated its success
wherever intelligently applied.
This is the most liberal offer of irrigated farm land on record.
For full particulars, apply to

Foster's gaze narrowed as he gazed up the hill and across the figures came round a bend. They were too far off to see clearly, but every watching face, if he was still, he would be invisible for two or three minutes, but not longer, and he quickly moved his surroundings. There were large boulders and boulders between him and the water, and the other side. It might be better to get out of sight, but he would make an experiment, and dropped a few yards and hid himself in the bushes. The country people did not use a watch and a London newspaper were not common among the border people.

The Rust Menace In Canada

Reasons to Believe That Eradication of This Evil Is Nearing Solution

What rust on grain has cost the Canadian farmer is a colossal sum, based on startling reductions in yield, and in turn, the consequent loss in the export market. The rust on grain has cost the Canadian farmer a colossal sum, based on startling reductions in yield, and in turn, the consequent loss in the export market.

Many people, indeed, fancy the rust menace in Canada is the tradition of the past, and in the past, it was a very real menace. The rust on grain has cost the Canadian farmer a colossal sum, based on startling reductions in yield, and in turn, the consequent loss in the export market.

There were two men on the fence, and they were looking at each other. The rust on grain has cost the Canadian farmer a colossal sum, based on startling reductions in yield, and in turn, the consequent loss in the export market.

Education in Patriotism Democratic Peoples Why is it that those who seek to destroy the German system, and the people of the allied nations, are so much more interested in the rust menace than the people of the allied nations?

Rosemary Farmers Break Even In Court Cases.

On Friday last before Justices Skerrett and Struthers J. De Forres of Rosemary was charged with intimidating R. Bowden also of Rosemary, and an additional charge was laid against the former of assaulting the latter after information had been laid again at him on the first charge.

De Forres pleaded Not Guilty to the first charge and the case was dismissed, plaintiff to pay cost.

On the second charge the accused pleaded guilty and was fined \$20.00 and costs, though he asserted that all he did was to push plaintiff away from him in self defense. Justice Skerrett, however, took a serious view of the case by reason of the fact that the object of the assault was in revenge for the laying of information against him by the plaintiff. His Worship pointed out that the law gave the protect equally to defendant and plaintiff and it could not be permitted for any man to take the law into his own hands.

De Forres paid the fine cheerfully remarking that it would not have cost him any more if he had soaked the plaintiff good and hard.

A Genuine Proposition In Farm Land

The advertiser came here last spring, selected a good quarter-section of C.P.R. Irrigated Land, five miles east from Bassano; bought an outfit, Titan Engine, 3-bottom plow, double disk, etc., and went to work to prepare for a crop next season.

I have broken and disked 140 acres, am making ditches with expert assistance and will get the water over it within a short time.

At this stage I find I am obliged to return to the States this fall and most reluctantly abandon a most promising enterprise.

I will dispose of my Interest for any Equitable Consideration or Will Rent on Shares for a term of years.

I am not much of a correspondent, so if you are interested come out and see the place.
